

**INCIDENT MANAGEMENT SITUATION REPORT
TUESDAY OCTOBER 26, 2004 – 0530 MDT
NATIONAL PREPAREDNESS LEVEL 1**

CURRENT SITUATION:

Initial attack activity was light nationally with 17 fires reported.

OUTLOOK:

Weather Discussion: A cold and wet weather system will move into the Pacific Northwest and northern California today, bringing valley rains and mountain snows. Snow will be especially heavy in the Sierra Nevada Mountains of California where as much as 2 feet is expected. Later in the day, rains will spread inland into the western and northern parts of the Great Basin. Pleasant and warm fall conditions will continue along the Eastern Seaboard.

Geographic Area Weather	High Temperatures	Minimum Relative Humidity	Wind
SOUTHERN CALIFORNIA AREA Increasing clouds with rain spreading from north to south over the region. Snow in the Sierra above 5,000 feet. Partly cloudy over the deserts.	30s to 40s mountains. 55 to 65 valleys. 60s upper deserts. 70s lower deserts.	Above 50%.	Southeast to southwest 10 to 20 mph.

IN COUNTRY NOT SEEN IN DAYLIGHT

Often firefighters arrive on a fire after dark. This is recognized as Watchout Situation #2. Before safely fighting fire in country not seen in daylight, firefighters must be able to answer the following questions:

- Can the resources you are replacing give you a thorough briefing? Identify whom you might get information from. Can you meet up with the departing crew/engine leaders?
- Can you observe the area/use scouts? List ways you could observe the area you need to work.
- Have escape routes and safety zones been thoroughly scouted and marked for night use? Talk about what constitutes an escape route and a safety zone; who would identify them; and in what ways might they be marked.
- Have potential dangers been located; can they be mitigated? What are the dangers associated with Watchout Situation #2? How can they be worked around?
- Reduce the risks by:
 - Posting lookouts.
 - Checking communications.
 - Retreat if you have doubts about your escape routes or safety zones or the situation becomes too complex. Give examples of arriving on a fire after dark and what was done to allow you to fight fire safely in country not seen in daylight.
